OUR SERVICES

Sanitizing & Disinfecting

Sometimes just cleaning touchable surfaces with soap and water is just not enough to keep the place clean, hygienic, and safe. This makes the sanitizing and disinfecting necessary where the germs and microorganisms are eliminated.

We **CTS** are providing professional sanitizing and disinfecting services for homes, offices and warehouses in the region using **approved chemicals technology**. Sanitizing is a process that lessens and even kills germs on surfaces to make them safe for contact.

Disinfecting requires a much stronger chemical to destroy all the germs. Sanitizers are chemicals that can kill 99.99% of bacteria(not virus and fungus) in 30 seconds while disinfectant is products that can destroy all organisms in 10 minutes.

OUR SERVICES

Housekeeping Services

Let us ease the burden of maintaining a clean home for you. Spend more time with your family and friends as we take care of the mess around your house. With our friendly and trustworthy staff, you can look forward for a home that is spic and span. To better cater your needs, we offer flexible schedules and rates that suit your budget.

For this service, we include the following:-

KITCHEN:

We scour all the dirt in your kitchen, including those that hide on the sides of your counters and inside the cabinets. We also thoroughly mop the floor. We also ensure that all drains are cleaned and dried.

ROOMS:

We dust, clean, polish and wipe frames, tables, light switches, window sills, doors and all your furniture and other decorative items. We also sweep and mop the floors and leave them clean and shiny to your delight.

BATHROOMS:

We clean all fixtures in your bathroom and treat any mildew. We also clean all counter areas and scrub and sanitize the tiles and bowls.
